

NIGHT WHISPER BACKSTORY

Beneath Bifrost there lays a terrible threat. Should you fancy a council with with Asgard, beware. There is one who drunk deeply of Yggdrasil's wounds wrought by Nidhogg. He drew in the darkness of Nidhogg's regurgitation to such an extent that he is nearly midnight black himself. He thanked his Father with the gory slain and then was rarely heard from again. Rest uneasy in the forests and mountains surrounding Bifrost, the Night Whisper rests there.

The Night Whisper is a dragon that lives in a cave beneath Bifrost in an alternative Midgard. He is roughly the bulk of a big bull elephant stretched out over 6 meters (20 feet). He is grey and black in color with thick scales. He has powerful wings and flies easily. He has a barbed tail and horrid hooked claws. He posses the power of the chameleon and can alter his shade to match the night of the the full moon or the night of no moon. He carves great swaths of char with his fiery breath. He's a dragon's dragon.

He rarely leaves his lair, but when he does he can roam great distances to slake his lusts. He acts on impulse, he is erratic and cannot be reasoned with even if he had the capacity to do so. He is furious and stupid, but not without some tactical consideration. Arrows and swords are virtually useless against him. Just run and hide and hope it's not you he's after.

He revels in his visage and meanness. He takes great pleasure, when he makes an appearance, in surprising and scaring the children of Ask and Embla.

He's a bad guy, stay away. He can hide before your very eyes. You will only see him when he is ready and on his terms. Don't seek glory in attempting to slay him. You will not ascend to Valhalla for dying stupidly.
