

PICKLE PITS BACKSTORY

Pickle Pits is a grimblor. He's not a dime a dozen, sniveling little grimbling. He may ask the Grimble himself for the vast repertoire of spells he needs to collect the sweet, sweet misery for his master. And, in return, Pickle Pits will be rewarded with continued existence. All grimblings, including grimblors, are constructs. They are made of dust and small particulate refuse that have been compacted and molded into a form the Grimble finds useful. They almost always, though some very faintly, smell like an antique store. Once a vast store of misery is located, the Grimble will construct a grimblor to act as his direct conduit to the world inhabited by the Grimblor. Thereby, he may extract the food he needs (misery...the Grimble's a psychovore) from the residents of said world. The difference between grimblors and the other grimblings is that a grimblor may communicate directly with the Grimble and may invoke the Grimble and use his magic. Other grimblings are simply given spells and base mana upon creation, they are limited and expendable.

Pickle Pits is not expendable. He has discovered a rich source of misery and has discovered a portal in this world that is linked to another. So, the Grimble is well satisfied with Pickle Pits's extroverted and entrepreneurship as he is getting a 2 for 1 out of him.

Physically, Pickle Pits, like most grimblings, looks like a dark, twisted gnome. He wears a little pointy hat and greyish, ragged looking clothes with a rope for a belt. He is pretty big for a grimbling, 1.42 meters and 44kg. However, compared to other grimblings, his movements are clunky. His fingers, however, are long and nimble and he doesn't miss a thing that crosses his pervue.

Mentally, He is sharp for a grimbling. He can solve logistical problems most grimblings struggle with. He is also, very creative and uses his creativity to extoll the nature of his exploites in rhyme and meter (a grimbling quirk...they all speak thusly).

Psychologically, Pickle Pits is mean and completely self serving. And to serve himself, he must serve the Grimble. He has on odd appeal most beings find irresistible. He is brash and boisterous and is open to novel solutions to problems. He can be a little sloppy in his planning, but makes up for it in the moment with a golden tongue and a mind for a deal.
